

ABHISHEK KUMAR

Computer Science & Engineering Student | Software Developer

📞 9264959488 ✉ akabhishek2316@gmail.com 🌐 GitHub 📱 LinkedIn 📁 Portfolio 📍 Gorakhpur, India

PROFESSIONAL SUMMARY

Computer Science & Engineering student with hands-on experience building web and mobile applications using **React, React Native, JavaScript, TypeScript, Firebase, and Node.js**. Skilled in real-time communication, authentication, push notifications, location-based features, and responsive interfaces. Currently developing expertise across the MERN stack, with a strong interest in software development and real-world problem solving, seeking an internship or entry-level software development opportunity.

EDUCATIONS

Dr. A.P.J. Abdul Kalam Technical University (AKTU) | Lucknow 2023 - 2027

B.Tech in Computer Science & Engineering

Currently in 7th semester, pursuing [B.Tech](#) in Computer Science & Engineering.

Saraswati Vidya Mandir Public School | Gorakhpur 2021 - 2022

Senior Secondary (CBSE)

score : 80.6%

PROJECTS

TruSphere | 🌐 Github Jul 2026 - Present

Real-Time Messaging Application

- Built a real-time messaging application with **12+ core communication features** using Firebase Authentication and Realtime Database.
- Implemented **6+ message and chat-state features**, including sent/delivered/read receipts, online/offline presence, typing indicators, unread tracking, disappearing messages, and replies.
- Integrated **3 media/notification capabilities** — push notifications, image sharing, and voice messaging — using FCM, Node.js/Firebase Admin SDK, and Cloudinary.
- Added message management features including **delete-for-everyone and chat synchronization**, with real-time updates across conversations.
- **Currently developing real-time voice/video calling** to extend the application with direct communication capabilities.

Technologies / Tools Used : React Native, Expo, TypeScript, Firebase, Node.js, Cloudinary

Rakshiva | 🌐 Github Mar 2026 - Apr 2026

Real-Time Safety Application

- Developed a real-time SOS application combining **3+ emergency capabilities**, including emergency alerts, live location sharing, and emergency history.
- Integrated **real-time geolocation synchronization** using Firebase for emergency tracking and guardian monitoring.
- Built a guardian panel with **3 key monitoring areas** — live location, emergency history, and evidence-related functionality.

Technologies / Tools Used : React, JavaScript, Firebase, Leaflet, Firebase Cloud Messaging

SKILLS

Databases : Node.js, Express.js, MongoDB, Firebase

Frameworks & Libraries : React.js, React Native, Expo, Tailwind CSS, Node.js, Express

Languages : English, Hindi

Programming Languages : C, JavaScript (ES6+), TypeScript, HTML5, CSS3, Python

Soft Skills : Real-time application development, Responsive UI development, Firebase integration, API and notification workflows, Full-cycle project development, Problem solving

Tools & Platforms : Git, GitHub, VS Code, Postman, Cloudinary
